

The BioMat stimulates ion channels by producing negative ions that deliver energy to the cells of the body. The topmost layer of the BioMat is constructed of superconducting channels of pure amethyst, which allow the far infrared rays and negative ions to penetrate the body deeply. Infrared rays provide a deep penetrating warmth and help to relax tense muscles. The infrared rays in the Amethyst Biommat are the same rays that are found in the sun. Long sessions on the mat can induce a toxin-eliminating sweat. Your overall health, vitality and resistance to disease will be strengthened.

You will feel rejuvenated and refreshed!

Some benefits of the BioMat are:

- Increased Tissue Oxygen
- Increases Immune System
- Increases Circulation
- Increases Serotonin
- Reduces Inflammation and Muscle Tension
- Reduces Insomnia
- Arthritis Relief
- Reduce Stress
- Eases Minor Joint Pain and Stiffness
